Fiber SenSys 

CLASS 1 LASER OUTPUT
This product complies with 21 CFR 1040.10

Installation List

Fiber Optic Data Security

The number of sites protected with Fiber SenSys technology, SecurLAN® continues to grow. Each of these sites uses fiber optic intrusion detection sensors as a baseline for physically protecting a data distribution system against cable tampering.

Clients

American Century Investments
Anderson Air Force Base
Aviano Air Base
Boeing
Command Post Tango
Ft Sam Army Base
General Dynamics
Hickam Air Force Base

Langley Air Force Base
Lockheed Martin
Maxwell Air Force Base
Misawa Air Base
Osan Air Base
SPAWAR San Diego
Scott Air Force Base
Yokota Air Base

Fiber SenSys has provided intrusion detection equipment to protect sites around the world. This list, while not entirely inclusive, presents a summary of some of our major installation sites.

Due to the sensitive nature of the product and services we provide, Fiber SenSys is unable to provide site specific details or contact information for the sites.
