## PIRAMID XL Series

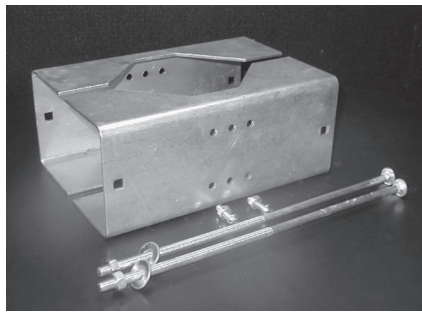

**PH-5 Lookdown Housing**

Special housing for aiming the sensor downward at an angle greater than 45 degrees. Has a built-in rain gutter to route water away from sensor face. Excellent for looking down a ladder or down the side of a building. Eliminates the problem of rain running off of the sensor and falling in its field of view.

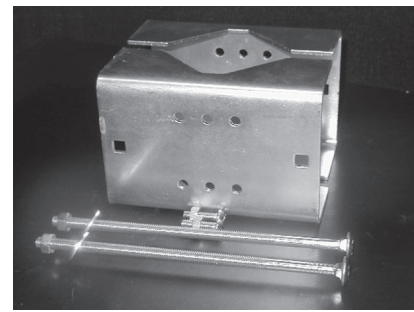

**XL-SOUNDER Audible Tester**

XL-SOUNDER, audible tester, shown plugged into the receptacle on the face of the PIRAMID XL sensor. The XL-SOUNDER enables a single installer to precisely walk-test and adjust the sensor.

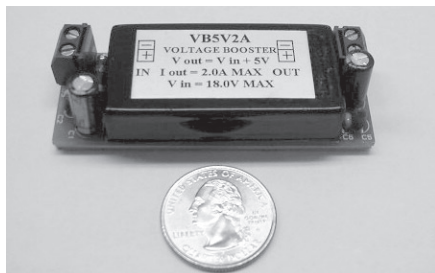

**PH-4A Universal Pole Mount**

Enables the mounting of the PIRAMID XL on poles with a diameter of 4.5" to 8.5"

**PH-4 Universal Pole Mount**

Enables the mounting of the PIRAMID XL on poles with a diameter of 1.5" to 4.5"

**VB5V2A Voltage Booster**

Adds 5-Volts DC to power supply  
**Maximum Current: 2A**

**VG9625 Vandal Guard**

Steel wire cage that helps protect PROTECH's intrusion sensors from vandalism and accidental damage.
